

PWG MEMBRANES

Based on our in-depth knowledge of the distribution, we chose a limited range of Membranes for water purification. Our goal is to provide you with high quality products at competitive Price while ensuring immediate availability. Please note that these Membranes are manufactured in Europe by one of the leaders in the market on behalf of PWG and that the PWG Membranes are used in our Herco reverse osmosis systems.

Reference	Description	Equivalent Hydranautics	Flow l/h	Rejection ratiom Nominal (%)	€
Low Pressure Membrane					
1112010001	Membrane 2521ND	ESPA 2521	58	99.0	
1112010002	Membrane 2540ND	ESPA 2540	126	99.1	
1112020001	Membrane 4021ND	ESPA 4021	171	99.0	
1112020009	Membrane 4040LC	-	364	99.0	
1112020003	Membrane 4040ND	ESPA 1 4040	411	99.3	
1112020004	Membrane 4040HR	ESPA 2 4040	300	99.6	
1112020007	Membrane 4040HF	-	522	99.3	
1112030002	Membrane 8040ND	ESPA 1 8040	1900	99.3	
1112030003	Membrane 8040HR	ESPA 2 8040	1425	99.6	
Solution test of NaCl concentration of 1500 ppm - applied pressure 10.3 bar (150 psi) - Temperature 25 ° C - recovery rate: 10% - pH range: 6.5-7.0 * permeate Flow may vary approx. 20%					

High Rejection Membrane					
1112010003	Membrane 2540BW	CPA2 2540	102	99.4	
1112020008	Membrane 4040BW	CPA2 4040	364	99.5	
1112030001	Membrane 8040BW	CPA 3 8040	1740	99.5	
Solution test of NaCl concentration of 1500 ppm - applied pressure 15.5 bar (225psi) - Temperature 25 ° C - recovery rate: 10% (2540) 15% (4040,8040) - pH range: 6.5-7.0					

INTRODUCTORY OFFER (Valid until 31/12/2015) - NET UNIT PRICE			
	< 4 pieces	4 - 10 pieces	> 10 pieces
Membranes 4040 (ND/HR/BW)	€ 180,00	€ 170,00	€ 155,00
Membranes 8040 (ND/HR/BW)	€ 520,00	€ 490,00	€ 440,00

If you need other types of Membranes, do not hesitate to contact our sales team: tech@micron.be
